

# RAPIDFOLD

The SJ3219 ANSI 92.20 model is now supplied with **RAPIDFOLD** as standard. The new system allows the top of the platform rails to quickly fold down, enabling access through standard doorways. Four quick release pins fold the rails within seconds.

**RAPIDFOLD** features simple and easy components that a single operator can use, with no need for tools.

This means the Skyjack SJ3219 model is the lightest scissor lift on the market that is wind rated to full height for 1 person, still maintains a 2 person no wind rating, and is capable of going through a standard door.

## KEY FEATURES

- Access through standard doorways
- Folds rails under 80"
- Quick folding 4 pin release
- No tools required
- Seconds to fold/unfold
